Genry Corn Shipments Help Shorts Not Already Stampeded and Reaction in Prices Continues.

aven though there was a drop of Sign is alay corn, July wheat held the center of the stage. The market on this month opened is below yesterday and a decline began which could be stayed only temporarily by rain predictions and reports of crop damage. The high point was the same as yesterday's close, and the market mished at the low figure, folic.

Wheat and corn in all months opened lower and sustained further declines during the day. May wheat closed at \$1.01 and September at \$3igc.

Heavy shipments of corn have helped the shorts who have not already been stampleded, and the reaction toward a lower price continues. There was a loss in all months, but chiefly, of course, in May. Today's receipts at Omaha were 103 cars and Chicago got 852 cars. May closed at 45%c, July at 48%c, of July at 48%c, of July at 48%c, and July at 48%c, september at 47%c and old September at 48c.

Outs were steady at about the same figures. May finished at 31%c, July at 30%c and September at 20%c.

Three cars of corn changed hands on exchange, and the price was 1/2 lower than yesterday. The grain was No. 1. No. 1 held the same prices. The cash wheat business has been slow for a few days and there is very little coming into the city.

fty.

The tone of the crop damage advices yes-The tone of the crop damage advices yesterday was a little more positive than before. The chief complaint was that wheat was heading out short and was that on the ground. Missouri told of smut. The damage reports came from Tennessee, Kentucky and Missouri and the southwestern sections, which have previously made had reports. The news from Ohio and Indiana was good. The weather northwest was fair and cool and no damage reports came from spring wheat territory. Nevertheless, the spring wheat markets closed higher.

theleas, the spring wheat markets closed higher.

Sales of cash corn in Chicago yesterday were 300,000 bushels, including 100,000 bushels for direct export. Most of the corn is going to Montreal and over 500,000 bushels were sold and chartered for that port this week. The seaboard sold 100,000 bushels for export.

The total wheat stock at Minneapolis is now 7,158,467 bushels, including 4,450,854

week. The seaboard sold 100,000 bushels for export.

The total wheat stock at Minneapolis is now 7,185,467 bushels, including 4,450,554 bushels of No. 1. This shows a decrease for the week of 275,549 bushels. The demand for cash wheat at Minneapolis was slow at today's opening, No. 1 selling about le over the May price; No. 2 sold early at 20 over the July price, but later was the same as July. Minneapolis has lately been drawing about as much wheat as all the other markets combined. There has been a noticeable failing off in the last two days in the milling demand. Australian wheat shipments for the last week were 52,000 bushels and for the previous week 280,000 bushels. Dallas, Tex., reports that the harvest will begin next week if the weather is favorable and says that the state will yield 15,000,000 bushels.

At Liverpool wheat closed quiet at 4,07%d higher and corn quiet at 4,d higher. Berlin closed unchanged.

Broomhall cabled from Liverpool: "The world's wheat shipments for the past week are estimated at 2,500,000 bushels, against 11,056,000 bushels he previous week. Of this quantity Europe will take about 5,000,000 bushels. There will be some decrease in the quantity of breadstuffs on passage. Arrivals of breadstuff into the United Kingdom during the past week were about 4,000,000 bushels, against 3,570,000 bushels the week before and 4,114,600 bushels last year."

Today's Inter-Ocean says: "The southwest, although a good buyer of wheat, sent in more reperts yesterday of crop damage than buying orders. It has surprised the trade of late to see the comparative weakness in the southwestern markets in the face of bad crop reports. Kansas City closed 4,074,c lower and St. Louis 4,c higher to 1c lower. Generally when there is legitimate damage to the winter wheat crop, St. Louis traders are always the first to load up. One of the largest St. Louis traders, who has been very bearish, has bought September here steadily for two days and is very bullish."

CATTLE-There were only about eight cars of cattle here today, not enough to make a market. Receipts for the week were about 16,700, showing a slight increase were about 16,700, showing a slight increase over last week and a gain over the corre-sponding week of last year of about 2,000 head. The general quality of the cattle was fairly good, although there was little choice stuff on sale. The market was good both Monday and Tuesday, but from then till the close of the week it showed a Treasury Statement.

WASHINGTON, May 27.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 reserve in the division of redemption, shows: Available cash balance, \$125,575,681; gold, \$69,700,343.

son, the market closing at the lowest point of the day.

For the week the market shows no notable features. The first of the week the market ruled higher than at the close of last week, but broke on Wednesday, when receipts were the heaviest of the year. The market showed a decline of a shilling on that day and did not recover all the loss. The market for the last three days of the week ruled lower, closing about \$1610c lower than the close of the previous week.

CALVES.

CALVES.

HOGS—There was a good run of hogs here for a Saturday, about 130 loads being on sale. There was a little weakness to early reports from other points and this market was affected to some extent. Recipits arrived early and buyers were out in good time. The market opened with bids right around steady and some hogs soid that way. After the first round, however, the market eased off and trading became dull and draggy. Buyers were bearish and sellers were forced to take off some on the price. Trading, later in the forenoon was at figures about 2½c lower than yesterday and most of the nogs changed hands at the decline. The bulk sold at \$5.15\% 5.17\%, with several loads early at \$5.20, tops reaching \$5.25. While trading was slow about all the hogs were disposed of in good season, the market closing at the lowest point of the day.
